Software Engineer

ABOUT ME

My previous career experience has been in a fast paced grocery store environment. I started studying programming at Epicodus with the intention of putting my ability to problem solve and think critically to use in the world as a software engineer.

EDUCATION

2022 • Epicodus
Certificate in December 2022 Web and Mobile Development
- Pair programming
- Unit Testing
2011 - 2015 • University of Iowa
B.S Biology

PROJECTS

Arkham Horror - Worked as a team to create and test javascript text based RPG game.
github.com/lcmpbll/Arkham-Horror

Factory Tracker - A C# webpage using SQL and MVC keeps track of machine repairs and engineers.
github.com/lcmpbll/Factory.Solution

Oregon Parks - A front end React application that uses information from an API to give information to the user.
